The Flexibility You Need for Superior Communications

FleetBroadband provides constant, simultaneous access to voice and high-speed data services so you can send and receive e-mail with large attachments, run complex data applications, access corporate networks, and enjoy crystal-clear calls more affordably than ever before. Equip your vessel with a next-generation, global communications center using KVH's TracPhone FB250 or FB500 along with FleetBroadband's services:

- Standard IP up to 432 Kbps for e-mail, Internet and connections to company networks
- Streaming IP for guaranteed data rates up to 256 Kbps on demand
- Voice connections available even as you are enjoying high-speed data access
- ISDN for global data connections at 64 Kbps (TracPhone FB500 only)
- SMS for easy, inexpensive text messaging (up to 160 characters)

Introducing the new TracPhone FleetBroadband family

Enhanced data performance, global coverage, and outstanding voice service all in a compact, rugged, and cost-effective package

The safe operation of a vessel, up-to-date navigational data, the demands of business in the 21st century – they all demand powerful, real-time communications wherever you travel. Now owners, captains and fleet managers have a new option to deliver all of this – Inmarsat's FleetBroadband service. Built upon the most advanced commercial satellites ever launched, FleetBroadband is the first maritime communications service to provide cost-effective broadband Internet and voice connections at the same time via a global network. And there's no better way to use FleetBroadband than the new rugged and reliable KVH TracPhone FB250 and FB500 systems. Together, KVH's TracPhone systems and Inmarsat's FleetBroadband service offer next-generation, high-speed Internet and voice service for demanding global maritime applications.

- Choice of TracPhone antennas sized to support installation on almost any yacht
- Data rates up to 432 Kbps
- Flexible airtime pricing
- Global network availability
- Complete compatibility with standard Internet, e-mail, and other onboard applications
- Versatile IP handset for easy system use and configuration
- Unrivalled reliability from Inmarsat, the world's leading and most trusted mobile satellite service provider

Global coverage, connecting you virtually anywhere you cruise

Inmarsat's new I-4 network uses the most powerful mobile communications satellites ever launched. From these orbital locations high above the equator, they provide global coverage for FleetBroadband service.

Powerful commercial-grade hardware solutions for virtually any vessel

Enjoy the flexibility of choosing from two satellite communications terminals with a choice of size to complement your boat's other equipment. The fully stabilised TracPhone FB250 and FB500 both offer global operation and crystal-clear connections even in the most severe weather. Each system is easy to install thanks to a compact above-decks terminal and integrated below-decks unit with full system configuration using just the system's IP handset.

TracPhone 252 – small and simple for voice, fax, and e-mail

Not every vessel needs a full-powered broadband connection. If you have a smaller boat or simply want an outstanding voice, fax, and e-mail solution, consider the affordable, award-winning KVH TracPhone 252 and Inmarsat's mini-M service. Visit www.tracphone.com for details.

Inmarsat Airtime by KVH

Choose KVH Industries and Inmarsat and enjoy award-winning, rugged communications systems, powerful global service, and affordable airtime. The dynamic Inmarsat FleetBroadband service offers fast, reliable services via the most powerful maritime communications satellites ever launched. And you can trust KVH, the industry leader in maritime satellite systems, for the best new products and service available – the FleetBroadband-compatible TracPhone FB250 and FB500. This complete line of maritime satellite solutions, along with outstanding airtime rates, makes KVH the best source for your marine communications needs.

Unsurpassed Warranty and Technical Support

Wherever you travel, you can always count on outstanding support and service through KVH's award-winning quality, product, and customer support programs. This suite of resources includes KVH's 24/7 online support system; a responsive, international KVH support team, and our exclusive KVH Certified Support Network (CSN) staffed by highly skilled and trained dealers and distributors around the globe. Plus, all of KVH's Inmarsat-compatible TracPhone products are covered by our extended 2-year parts, 2-year labour warranty program when you choose to activate them using "Inmarsat Airtime by KVH". Limitations will apply to other activations.

Access the Internet, e-mail, and company networks even faster with KVH's Velocity Acceleration software, which provides a 200-500% increase in data speed for Inmarsat services. Optimised for use over satellite connections and fully compatible with KVH's TracPhone products, Velocity Acceleration is available to any Inmarsat equipment owner who activates their Inmarsat service through the "Inmarsat Airtime by KVH" program.

KVH – Leader in Mobile Solutions

KVH is the world's leading provider of mobile satellite communications and TV antenna systems and has been serving the marine industry since 1982. With unsurpassed tracking systems and rugged designs ideal for virtually any vessel type and size, KVH's fully stabilised antennas offer unmatched performance during all sea and weather conditions.

With more than 150,000 mobile satellite antennas fielded worldwide, KVH has supplied more satellite telecommunications and television systems for mobile applications than any other manufacturer and has won the National Marine Electronics Association's "Best Product Award" 23 times. In any harbor, anywhere around the world, you'll see the distinctive KVH antennas with gray baseplates installed on more boats than any other brand of satellite antenna. Tens of thousands of commercial and leisure mariners, along with the U.S. Coast Guard and allied naval vessels around the globe, rely on KVH's rugged satellite systems for their connections to shore, their offices, their families, and the world around them.

When you choose KVH, you choose the best!
