

FUSION®

MARINE 10" SUBWOOFER

MS-SW10

INSTALLATION GUIDELINES

Ensure the audio system is turned off before making any connections to the amplifier, subwoofer or source unit. Failure to do so could result in permanent damage to the audio system.

When wiring the subwoofer ensure that wires are protected from sharp objects and always use rubber grommets when wiring through panels. Ensure all terminals and connections are protected from grounding and from each other, as failure to do so could result in permanent damage to the audio system.

When connecting the amplifier and subwoofer ensure you connect the positive and negative output wire from the amplifier to the corresponding subwoofer terminals.

- » Ensure there is adequate clearance and depth for the subwoofer to be mounted
- » Drill the holes for the mounting screws
- » Insert the subwoofer and secure with the appropriate screws

SUBWOOFER PARAMETERS

MAX POWER RATING	400 Watts
FREQUENCY RESPONSE	30Hz - 2kHz
IMPEDANCE	4 Ohms
SENSITIVITY	88 dB
MOUNTING DEPTH	115mm (4-1/2")
MOUNTING DIAMETER	222mm (8 - 3/4")
OVERALL DIAMETER	268mm (10 - 1/2")
